## True contact smart caller id apk

Real contact: Caller ID and reverse phone service True Contact: very fast and reliable. Real Contact : Know who is calling before answering the call! Features: • Caller ID - a real caller ID with name, address and photo. • Turn your phone over for mobile and landline phones with worldwide coverage. • Social enrichment – contact data systematically updated and cross-checked using social networks • Automatically add new contacts to the phone book (can be set in settings) • Call log - retrieve real caller ID information for unknown numbers from the call history list in one view. • Phonebook Update – Keep your phonebook up-to-date with your friends latest address info, pictures and much more. (this feature available in pro version) • Caller location - worldwide caller Geolocation service (location accuracy varies by country and operator) Caller ID profile may include: . name or company name . Address, personal photo or company logo .Status, Title True Contact countries include: • North American countries : USA, Canada • European countries : Germany, Switzerland, Austria, France, Norway, Italy, Hungary, Poland & many others. • Asian countries : India, Thailand, Taiwan, Malaysia and Indonesia • Real contact extending coverage to South American countries. New countries are being systematically added. True Contact retrieves caller contact information and IDs from several sources, including its own public and social networks. True Contact Caller ID pays great attention to data security and privacy. True Contact Caller ID does not sell, share data with any third-party application and/or organization. True Contact can be installed on ausatively along with other connectivity apps such as skype, WhatsApp or vover. True Contact is the real caller ID for your mobile device. True Contact Caller ID does not replace, change, or interfere with the dialing app. A popup with the real details of the caller ID will appear at the top of the screen when there is an incoming call. During an incoming call, you'll see the real caller ID details. Now you have the choice to answer if it's someone you trust, or drop the call for spammers, advertisers, telemarketing and call scams. Please note that the caller ID feature requires a network connection. If a network connection is unavailable during a call, the real contact will retrieve the caller ID details as soon as the current call is complete. We've also added a new phone book history feature. This allows you to get real caller ID information for calls stored in the contactbook. True pay is a huge attention to performance and responsibility, and this means that it will take no more than a few seconds to retrieve real caller ID information. In most cases, caller ID information retrieved within 1-2 seconds. This allows you to answer a call only if you know who is the person calling you! True Contact is a completely free caller id app. If you like it - feel free to rate it accordingly. In future releases of to add comprehensive spam protection. Auto block for spam numbers based on caller id from telemarketers and spammers. Note: . During an incoming call, information about the caller ID will appear on the screen. . A network connection is required to allow connection to True Contact servers. . This free version may collect information about your personal phone book to improve the caller's details search quality. . If you're looking for enhanced privacy and want to enjoy a full-featured version with contact enrichment , consider purchasing true contact pro. True Contact systematically improves the quality of contact details and caller IDs! Size: 2.5M Current version: 4.1.0 Requires Android: 2.2 and up I have this app, TrueCaller, and its only working part of the time. Understanding that constantly new numbers are added to the spam list, I expect to update the application database every day. Not so big a deal. The problem is that it clearly identifies the spam caller, but still allows you to go. I found it blocking legitimate spam calls as I recently put my CV online and immediately started to spam calls. I bought a new iPhone X 256GB, but I neglected to enable locking options in the settings. When this was done, no more spam calls ... or so I thought. The conversations I received, promising employment opportunities, required me to enroll in more schools. Holding two bachelors and a master's degree, I politely told a few times that I was not interested in school and explained my level of education. If you refuse their perseverance in enrolling in school, they rudely say they can't help. Truecaller stopped these. However, while a clearly marked red call is spam and reply, you'll find they let the call collection agency through. I have had my number for 10 years and still get collecting calls for someone I don't know! I haven't found any better apps, so collection calls will have to be manually rejected. Views: 6,561,723 Love Me? Let's tell everyone! True Contact is a useful Android to have that helps you find and block with a real caller ID. It has Smart Caller ID, Reverse Phone service and spam block. The application is so fast and reliable.
